PROFESSIONAL SUMMARY

Associate's Degree in Computer Programming (UNAHUR) and Computer Science undergraduate, with a solid foundation in the MERN stack and TypeScript. Experienced in building full-stack web applications, from relational (PostgreSQL) and NoSQL (MongoDB) databases to scalable architectures (Feature-Sliced Design) and Docker containerization.

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript (ES6+), Python, Java, SQL, Haskell.
- **Frontend:** React.js, Vite, Tailwind CSS, HTML5, CSS3, React Bootstrap, Responsive Design.
- **Backend & Tools:** Node.js, Express, REST APIs, Sequelize ORM, Mongoose, Electron, Git/GitHub.
- **Databases:** PostgreSQL, MongoDB.
- **Infrastructure:** Docker, Swagger.
- **Spoken Languages:** Spanish (native), English (Pre-Intermediate, A2).

FEATURED PROJECTS

SAU — Academic Support System (Full-Stack App) *Mar. 2026 – Jul. 2026*

Capstone Project

- **Backend & Typing:** Built a robust API with Node.js and Express using TypeScript, integrating PostgreSQL to manage academic records.
- **Frontend & Architecture:** Implemented a scalable interface following the Feature-Sliced Design (FSD) methodology with React, TypeScript, and Tailwind CSS.
- **UX/UI:** Collaborated on user experience design and component prototyping using Stitch.io.
- **Project Management:** Coordinated agile teamwork using Trello; integrated social features and an intelligent recommendation system.

Antisocial Net (Full-Stack App) *Jun. 2025 – Jul. 2025*

- **Backend & Architecture:** Developed a REST API with Node.js and Express, modeling complex schemas in Mongoose for users, posts, and comments.
- **Frontend:** Designed a responsive interface inspired by X (Twitter) using React.js and Vite, optimizing API consumption.
- **DevOps & Docs:** Implemented Docker containers to standardize the environment; documented and tested endpoints with Swagger UI.

EDUCATION

Bachelor's Degree in Computer Science — Universidad Nacional de Hurlingham *Jul. 2026 – Present*

Associate's Degree in Computer Programming — Universidad Nacional de Hurlingham (Graduated) *Jun. 2022 – Jul. 2026*

High School Diploma, Economics & Business Administration — Instituto Lincoln *2021*

CERTIFICATIONS

- Comprehensive English Language Program (British), Year 2 — Instituto Cultural Billinghurst (Phonetics, Grammar, Conversation).
- Relational Database Administration (PostgreSQL).

WORK EXPERIENCE

- **Poultry Butcher Shop Assistant** — Granja Bartolito (Aug. 2025 – Jul. 2026): Provided customer service and order fulfillment in high-demand environments; developed strong problem-solving skills under pressure and teamwork abilities.
